NOTIFICATION.

No. 1492. Dated Camp Mysore, 25th November 1885.

In supersession of the Rules contained in Notification No. 16, dated 15th April 1879, issued by the Secretary to the late Chief Commissioner, the following Rules regarding to the rights of occupants of kans in the Nagar Malnad Taluks are published for the information and guidance of all concerned :—

Rule 1.—The occupant of a kan has the right to tap toddy trees, subject to the Abkari Rules, and to cultivate pepper, also to collect gum and honey and all jungle produce ; he may further collect leaves (soppu) for manure for use in the kan itself, and cut underwood and thin out top branches to the extent absolutely necessary for securing the growth of the pepper vine.

Rule 2.—The kan-holder has the right to lop unreserved trees growing in the kan for soppu to be used in the kan itself.

Rule 3.—Where a kan extends to within 50 yards of the kan-holder's house, he has the right to fell any unreserved trees, or to lop for soppu any reserved trees, which may be growing within 50 yards of his house on any side. Within those limits he is allowed full liberty to plant any trees or carry on any cultivation whatsoever. The soppu lopped under this Rule must be used within the kan itself.

Rule 4.—Except in the cases covered by the foregoing Rules, the kan-holder has, as regards trees growing in the kan, no right, either

(*a*) to fell or injure any timber whatever, reserved or unreserved

or (*b*) to lop for "Soppu" or otherwise to injure or interfere with, any reserved tree.

If, in violation of this rule, he cuts or injures the timber of any tree, or lops for "Soppu" or otherwise injures any reserved tree, the terms of the tenure of the kan shall be considered to have been broken and the kan shall be resumed, the offender being further liable to punishment for breach of the Forest Rules.

Rule 5.—The kan-holder has no right to plant coffee in the kan and infringement of the conditions of the kan tenure by planting coffee will render the kan liable to be resumed.

by Hon'ble Mr. Donnell, Spl Asst Comr in re rights of the occupants of Kans to tap Shendi trees.

Refd. Insp. Genl of Forests No 3432/255 Dy 23rd April 95.

The undersigned respectfully submits the following [redacted] this aforesaid reference.

(a) Notifn No 1492 referred to in para 1, ought to be No 1490-91.

(b) The "License" referred to in (2) para 1 ought to have been "Pass" (Generally known as "permit" or Rahadari") under Sec 21 of the Excise Act.

(c) The License Rules referred to

) of para 1 ought to be specifically stated as "License Rules for Date Toddy" and "fermented toddy" in the same para ought to be said "fermented Date Toddy".

b) "the occupant of a Kan cannot manufacture and sell fermented toddy but can tap the trees and manufacture unfermented Toddy for making jaggory or sugar." As to the above, there are no Rules under the Act. Only Manual for "Bagan Toddy. The Dy Comr Shimoga explains the practice.

(c) "Irrespective of quantity, it can be utilized for "domestic Consumption before it ferments:" — It is not so. Quantity only to the extent needed for their domestic wants is allowed. (Please see Dy Comr's opinion in the extract of Register of Dasara Subjects).

f) the "trees" referred to in para 2 ought to have been "Bagan or other trees" Vide Rule 2 (iii) (a) Manual P. 6.5 to 108

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 25th November 1885.

READ—

Letter No. 170, dated 27th May 1885, from the Superintendent, Mysore Revenue Survey, recommending that the Survey Settlement of the occupied "Kans" of the Sagar Taluk which lapsed on the 1st April last, may be extended to a further period conterminous with the 30 years' lease granted in the Taluk generally and recommending certain modifications of the existing "Kan" Rules as proposed by the Deputy Commissioner of Shimoga.

CAMP No. 1490—91, DATED MYSORE, 25TH NOVEMBER 1885.

ORDER.—The working of the rules contained in the late Chief Commissioner's Notification No. 16, dated 15th April 1879, regarding the rights of occupants of kans in the Nagar Malnad Taluks has been found, as reported by the Deputy Commissioner, to be attended with considerable inconvenience.

2. Para 2 of these Rules is very indistinct, but it is quite clear that the intention was to give the kan-holder the right to lop unreserved trees for soppu and to prohibit only (*a*) his lopping reserved trees for soppu and (*b*) his felling any tree whatever for timber. Again Rule 1, which permits the removal of undergrowth, must also permit the thinning of top branches when really required for the growth of the pepper vine. Some of the kans have been measured, up to the house of the kan-holder and in a few cases the house itself has been included in the kan. It is necessary to leave him the free use of a strip of land round his house.

3. Under such circumstances, the Dewan directs the accompanying Notification, containing the revised Rules regarding the rights of occupants in kans, be published in the official Gazette. He hopes that these Rules will be found to remove all reasonable ground for complaint from the ryots of the Nagar Malnad Taluks, whose representatives at the Dasara Meetings have every year appealed to the Government for a less stringent arrangement.

4. The kan-holder's request that he may be permitted to lop reserved trees for "Soppu" and that he may be authorized to dispose of the toddy to the public cannot be entertained, the former, because it would injuriously affect the good growth of trees which are reserved and the latter, because it would materially prejudice an important item of Government revenue.

5. The settlement of the kans in the Sagar Taluk introduced in 1879 was for a term of 5 years, which expired on 31st March 1884. The continuance of that settlement till the expiry of the 30 years' settlement of the Sagar Taluk, is sanctioned as recommended by the Superintendent of Revenue Survey.

The General Secretary to
Government of Mysore

Sir,

I -- am forwarding, herewith, copy of letter No C 1, dated 20th October 33, from the Deputy Commissioner, Shimoga district, together with a copy of its enclosure, & have the honour to state that Rule 1 in Government Notification No 1492 dated 20th November 1880 provides — "The occupant of a Kan has the right to tap toddy trees, subject to the Abkari rules." Accordingly the occupant of a Kan can manufacture, & cause to be manufactured

(5) As under License Rules made by the government under Section 13 of the Excise act, nobody else but a Government Farmer has the right to manufacture and sell fermented toddy, the occupant of a Kan cannot manufacture and sell fermented toddy; but he can tap the trees and manufacture unfermented toddy for making Jaggory or Sugar. He can also utilize it for domestic consumption irrespective of quantity before it ferments but after it ferments, he cannot possess more than four seers of it.

(6) As per License Rules under the Excise act, and also Rule XXIII(1) of the Rules under the Land Revenue code, Government Farmers alone are at liberty to manufacture fermented toddy from the toddy-yielding trees in occupied lands, after obtaining the occupants' consent

63-64

2. Under para 15 of the Coffee Land Rules, the grantees of

of coffee lands can draw toddy from the trees in their lands for the making of bread or other bonafide domestic purpose, but not otherwise. But Rule 1 in Government Notification No. 1490-91-Pro 16 1492, dated 25th November 1895, quoted above, is not clear on the point. I have no objection, however to the occupants of Kans being allowed the same concession as the grantees of coffee lands. I beg therefore to recommend that the above Rule 1 may be amended as follows:—

"The occupant of a Kan has the right to draw toddy from the toddy-yielding trees in his Kan only for the use of the members of his family, but not for sale or for the use of his servants, labarers or other employés, the Government Farmers of toddy and being alone entitled to draw toddy for sale after obtaining the occupants' consent. The occupant of a Kan has also the right to cultivate pepper, to collect gum and honey and also other jungle produce, he may further collect leaves (soppu) for manure for use in the Kan itself and cut underwood and their out top branches to the extent absolutely necessary for securing the growth of the pepper vine."

no interference of any kind. As heretofore, a Kan-holder of the drinking class, his family proper and his Jeetagar families may use free the Bagani Toddy of the trees in his Kan, and a non-drinking Kan-holder may use it for his Jeetagar families only.

5. The simple question is whether a Kan-holder can, as a matter of right, sell the surplus Toddy of his trees, even to the Government Farmer, as considered by the Sub-Division officer, Lagar. As far as I am aware of there is no Kan-holder in the District, who himself does not admit that he has no such right.

6. In conclusion I beg to add that no contractor in the District has been allowed any right of interference with a Kan-holder in respect of his free use of the

READ :—

Notification No. 1492, dated, Camp, Mysore, 25th November 1885.

In supersession of the rules contained in Notification No. 16, dated 15th April 1879, issued by the Secretary to the late Chief Commissioner, the following Rules regarding the rights of occupants of Kans in the Nagar Malnad Taluks are published for the information and guidance of all concerned :—

Rule 1.—The occupant of a Kan has the right to tap toddy trees, subject to the Abkari Rules, and to cultivate pepper, also to collect gum and honey and all jungle produce; he may further collect leaves (soppu) for manure for use in the Kan itself, and cut underwood and thin out top branches to the extent absolutely necessary for securing the growth of the pepper vine.

Rule 2.—The Kan-holder has the right to lop unreserved trees growing in the Kan for soppu to be used in the Kan itself.

Rule 3.—Where a Kan extends to within 50 yards of the Kan-holder's house, he has the right to fell any unreserved trees, or to lop for soppu any reserved trees, which may be growing within 50 yards of his house on any side. Within those limits he is allowed full liberty to plant any trees or carry on any cultivation whatsoever. The soppu lopped under this Rule must be used within the Kan itself.

Rule 4.—Except in the cases covered by the foregoing Rules, the Kan-holder has, as regards trees growing in the Kan, no right, either—

(*a*) to fell or injure any timber whatever, reserved or unreserved,

or (*b*) to lop for "soppu" or otherwise to injure or interfere with, any reserved tree.

If, in violation of this rule, he cuts or injures the timber of any tree, or lops for "soppu" or otherwise injures any reserved tree, the terms of the tenure of the Kan shall be considered to have been broken and the Kan shall be resumed, the offender being further liable to punishment for breach of the Forest Rules.

Rule 5.—The Kan-holder has no right to plant coffee in the Kan and infringement of the conditions of the Kan tenure by planting coffee will render the Kan liable to be resumed.

II. Letter No. 3132—255, dated 23rd April 1895, from the Inspector General of Forests in Mysore to the General Secretary to the Government of Mysore.

In forwarding, herewith, copy of letter No. C. 1, dated 20th October 1894, from the Deputy Commissioner, Shimoga District, together with a copy of its enclosure, I have the honor to state that Rule 1 in Government Notification No. 1492, dated 25th November 1885, provides—"The occupant of a Kan has the right to tap toddy trees, subject to the Abkari Rules." Accordingly the occupant of a Kan can manufacture, or cause to be manufactured, toddy from the trees in his holding subject to the following restrictions under the Abkari Laws and Rules in force :—

(1) To manufacture *fermented* toddy a license shall be obtained from the Deputy Commissioner as per Section 5 of the Excise Act.

(2) No quantity of fermented toddy larger than four seers or imperial quarts shall be possessed without a license from the Deputy Commissioner.

(3) To manufacture or possess unfermented toddy intended to be used for the manufacture of sugar or molasses, no license of any kind is required (*vide* clause (*b*) of Section 21 of the Excise Act).

(4) No fermented toddy shall be sold except under a license granted by the Deputy Commissioner, (*vide* Sections 12 and 13 of the Excise Act).

(5) As under License Rules made by the Government under Section 13 of the Excise Act, nobody else but a Government Farmer has the right to manufacture and sell fermented toddy, the occupant of a Kan cannot manufacture and sell fermented toddy; but he can tap the trees and manufacture unfermented toddy for making jaggory or sugar. He can also utilize it for domestic consumption irrespective of quantity *before it ferments*; but *after it ferments*, he cannot possess more than four seers of it.

(6) As per License Rules under the Excise Act, and also Rule XXIII (1) of the Rules under the Land Revenue Code, Government Farmers alone are at liberty to manufacture fermented toddy from the toddy-yielding trees in occupied lands, after obtaining the occupant's consent.

2. Under para 15 of the Coffee Land Rules, the grantees of coffee lands can draw toddy from the trees in their lands for the making of bread or other *bona fide* domestic purpose, but not otherwise. But Rule 1 in Government Notification No. 1492, dated 25th November 1885, quoted above, is not clear on the point. I have no objection, however, to the occupants of Kans being allowed the same concession as the grantees of coffee lands. I beg therefore to recommended that the above Rule 1 may be amended as follows :—

"The occupant of a Kan has the right to draw toddy from the toddy-yielding trees in his Kan, only for the use of the members of his family, but not for sale or for the use of his servants, laborers or other employes, the Government Farmers of Toddy Vend being alone entitled to draw toddy for sale after obtaining the occupant's consent. The occupant of a Kan has also the right to cultivate pepper, to collect gum and honey, and also other jungle produce; he may further collect leaves (soppu) for manure for use in the Kan itself, and cut under wood and thin out top branches to the extent absolutely necessary for securing the growth of the pepper vine."
